Introduction

“I would sooner be a foreigner in Spain than in most countries. How easy it is to make friends in Spain!”

– George Orwell

Welcome to Spain

Spain has been a popular naturist destination for many decades. And it will probably remain so for many decades to come. With a number of naturist campings, nude hotels, naturist villas and naturist apartment complexes, Spain caters to every budget and every requirement.

There are the popular naturist villages Vera Playa and Charco del Palo and the Spanish coast is dotted with official and unofficial nude beaches. Thanks to the agreeable climate, it's also possible to get naked in Spain during low season and the Canary islands even have naturist weather year round.

In this guide, we'll show you around some of the best naturist accommodations and most wonderful nude beaches.

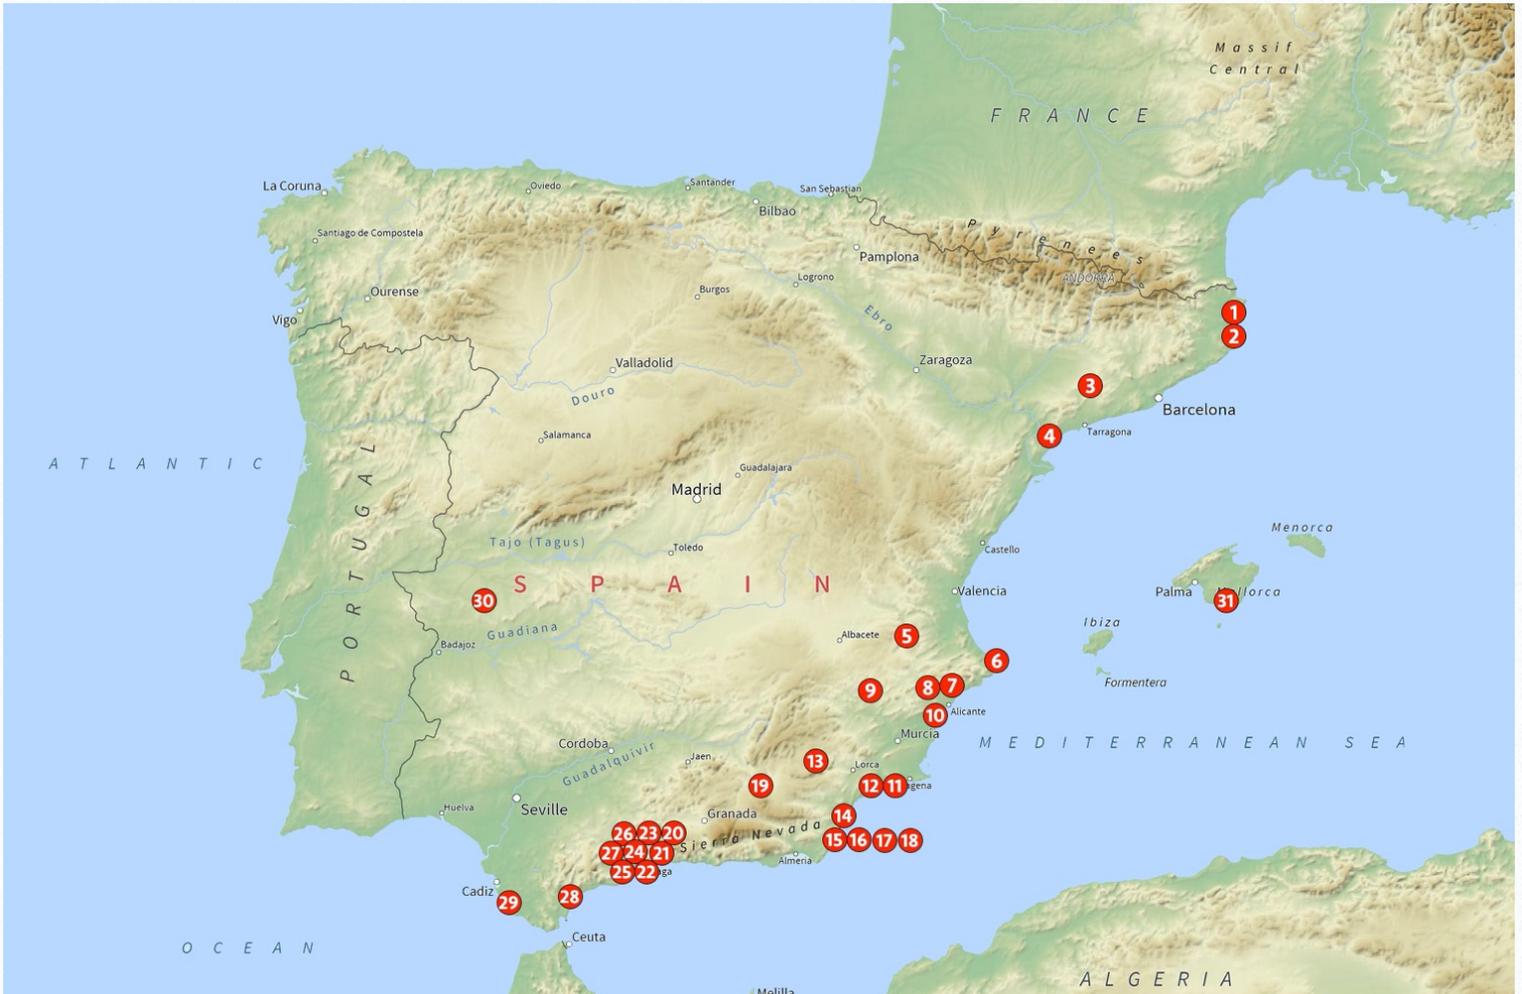

Welcome to Spain!
